

If you're looking around and thinking about ways to improve the comfort of your house, Puget Sound Energy is here to help. From rebates on efficient equipment to recommendations for qualified contractors, we can help you make your home cozy and comfortable.

### Water heater

Save buckets when you upgrade to an efficient water heater. PSE offers rebates on several types of quality equipment. Pro tip: You can also install inexpensive pipe insulation on any exposed hot water pipes to help reduce energy waste. [pse.com/waterheating](http://pse.com/waterheating)

### Air sealing and insulation

Prevent heat or cooling loss through unseen leaks and seams throughout your home! Insulating and air sealing your home is an easy, cost-effective way to increase your home's comfort while saving money long-term. You can also receive a rebate through PSE when you weatherize your home. [pse.com/insulation](http://pse.com/insulation)

### Ductless heat pump

If you upgrade to an efficient, qualifying ductless heat pump system you can receive a \$1,500 or \$800 rebate! Added bonus: They come standard with air cooling! [pse.com/heating](http://pse.com/heating)

### Lighting

LED lighting will brighten your home and lower your energy bills. Visit the PSE Marketplace to purchase energy efficient lighting and receive your PSE rebate instantly. [pse.com/marketplace](http://pse.com/marketplace)

### Smart thermostats

Regulate your energy use and manage your home's temperature settings right from your phone with a smart thermostat. You can also receive a \$75 rebate on qualifying models. [pse.com/thermostats](http://pse.com/thermostats)

### Clothes Washer

Looking to upgrade your clothes washer? You can get money back when you select energy-efficient appliances. Say goodbye to dirt (and water and energy waste) when you upgrade. [pse.com/appliances](http://pse.com/appliances)

### Efficiency Boost

Improve your home without breaking the bank. We offer increased rebates for income-qualified customers through our Efficiency Boost program. Self-qualify today. [pse.com/efficiencyboost](http://pse.com/efficiencyboost)

### Recommended Energy Professionals

Need help installing your new energy efficient equipment? We can help! [pse.com/rep](http://pse.com/rep)

\*Must be a PSE residential customer to qualify for above programs. Additional qualifications may apply, see website for more details
